

Technical Memo No. 110

New 00-019BL and 00-020BL Sliding Door Lock

New Sliding/Stacking Door Locks

The door handle range incorporates advanced security and safety features making this product the ideal choice for sliding patio door applications.

Style and Function

This range takes design cues from contemporary architectural styling to provide a harmonious look and feel throughout the home. The functionality has been enhanced by the intuitive operation of the unique sliding snib and the innovative LockAlert feature that indicates the lock status at a glance.

Application

The surface mounted lockset is suitable for use with DuoTherm™ and Lifestyle™ sliding and stacking doors. The flexible chassis coupled with innovative design features results in a non-handed product that is extremely easy to install and suitable for new and most retrofit applications.

Features

- Twin locking beaks for added security
- Door Close Detect button (DCD) anti-slam feature protects locking beaks from accidental damage
- LockAlert indicator shows lockset status at a glance
- DualSelect enables two stage key locking
- SafetyRelease function minimises the risk of being locked in
- Ergonomic sliding snib with intuitive downward motion to unlock

Strength and Durability

Made to the highest quality levels, the door handle range satisfies the Australian Standard requirements for strength and durability.

Product Range

The range includes internal D handles and slim pulls.

Suitable for use with DuoTherm™ (370 System) and Lifestyle™ (130 System) Sliding/Stacking Doors
